It is a matter of The Band of Hope, whose "Highcockfact that at least four-fifths of all the iron alorum" sped to Lexington on the eve of capital stock of \$50,000, for the purpose | inal cost. above stated, ought to be organized here without much trouble. We have at our abundance, requisite for the successful cution of this important branch of our more enterprising citizens will take

the greatest interest is manifested in the proceedings, by all in attendance. The spacious Town Hall is daily crowded with educators and the friends of education, and the common remark is that this is the most interesting Institute ever held in the county. Prof. Welsh, Superintendent of the Lancaster schools seems, by common consent, peculiarly qualified to take the lead in the proceed.

The figure lay in a box in a reclining of the rode, subject to a continuous jolt, enveloped in endless whirls of dust, with the pelting of little pebbles which head, although the hand and the greater portion of the arm were gone. The left arm being extended along the side, with hand resting on the thigh, but the most of it was broken away, leaving the finger had been broken in several.

The figure lay in a box in a reclining jolt, enveloped in endless whirls of dust, with the pelting of little pebbles which head all diseases that arise from impure blood. Sciatica, Inflammatory and Chromic Rheumatism, Neuralgia, Gour, and Spinal Complaints are the right land and arm supported the right land and arm supported the head, although the hand and the greater portion of the arm were gone. The left arm being extended along the side, as if the right land and arm supported the head, although the politing of little pebbles which head, although the politing of little pebbles which head, although the politing of little pebbles which head all diseases that arise from internal diseases, Canker, Flatness of the Stomach with the pelting of little pebbles which head all diseases that arise from internal all diseases, Canker, Flatness of the Stomach with the pelting of little pebbles which head all diseases that arise from internal all diseases that position he holds at home.

The Institute will close this evening in a fight. may be confidently anticipated.

zir, z about the country (as many do) calling on ones and beg, teaze and insist on their buying of us. We prefer to have a more decent regard for their feelings. We are almost daily receiving letters from persons outside of Licking County, wanting marble work and inviting as to call on them with our designs, that they may inspect them and learn our prices. This we do, and we never fall to suit, both in the design of

MONUMENTS.

We keep in our wave rooms a LARGER stock of finished Marble and Granite of all descrip-The designs are of great variety, in American and imported Marbles and Granites. Our stoo of finished work now on hand amounts to Fifteen Thousand Dollars.

It buyers visit our rooms they esu are the work all finished and set up just as it will be

when placed in the cemetery, and know just

what they are buying, and cannot be seed

ings in various shades. Call and see. It costs money to furnish Runners with horses and buggies which added to the commissions paid them makes a large item and the buyer has to pay it. There is no getting around this fact, although the runner (tesser) whemently proteste that six will sell chesper than any bedy else, and just here comes in the secret of the transaction which very few understand, to wit. The market prices of Foreign and American Marbles vary from twenty to fifty per cent., being graded as No. 1, 2, 3, average and common.

The market prices of Foreign and American Marbles vary from twenty to lifty per cent., being graded as No. 1, 2, 3, average and common—Now when a runner finds it necessary to sell very cheap, and although he promises the best, attilf when the work is being done the different grades of stock will be used according as the price demands and when delivered the buyer with his want of experience cuannot detect the difference. In our ware rooms can always to found the best and at the lowest rates, and if buyers want the cheaper grades, the prices will be fairly pointed out and you will not be made to believe that you are getting the best instead of the cheaper kind. In buying marble work it is very important that you be made to believe that you are getting the best instead of the cheaper kind. In buying marble work it is very important that you be made to believe that you will always regret it. Place no confidence in tomb atone burners who make themselves so officusive by hegging and tearing you to buy of them. They will promise you anything and everything to induce you to buy.

By visiting our works you will save memsy and also get a job that will give you satisfaction in alli respects. If inconvenient to come and see us, drop us a line when you are ready to buy, and we will call on you with our designs and give you prices. By doing this you cannot lose anything but you may gain considerable.

O. F. Mehurin, Esq.

DRAN SIR:—Yours asking in regard to work its our Cemetery is before me. I have a very good opportunity of comparing the work put spen our grounds, and I can say with the utmost traditional content of the public, your work is regarded as surpassing all others both in quality of marble and wurkmanship, and on this point may truly say, there is hardly room for but one opinion.

I don't know that I have ever expressed an opinion to you on this subject, but I have as you remark a deep interest in the character of our beautiful cemetery, and have on that so count often spoken of the great merits of your work.

Yours Respectfully,

Robert Millsoad,

Sup't of Ceder Hill Cemetery, Newark, O.

Boad the following

The above if applied to nine-tenths of the Cemeteries in Licking Co. would be a true statement. Facts cannot be successfully disputed. We also have a spiended stock of iron, sinte and marble maniols. Any one buying a manici, will be furnished at net cost, complete grates for their entire house. A complete grate consist of the front, fender, summer front, far baskot, ash pan, and hooks.
